EXPERIENCE

Senior Product Manager @ CHECK24 Profis

JANUARY 2022 - PRESENT | Berlin, GER

- ♥ Implemented a future-proof IT-infrastructure, which enabled us to give the users more customized user flows by planning and adding new shared backbone services and rebuilding 1st-level features, that will be used by every fork, by defining shared APIs.
- ♥ Improved the usability of iOS & Android application by replacing an integrated WebView- with a native chat messenger including new features (e.g. add appointment, swipe to see message details).

Product Manager @ CHECK24 Profis

APRIL 2019 - DECEMBER 2021 | Berlin, GER

- ♥ Improved the speed of software release cycles by 300% by writing scripts that test all critical feature flows inside a web browser.
- ♥ Reduced business spent per year by 25k EUR by replacing our Salesforce integration with custom build back office features (e.g. call logs, e-mail inbox, ticketing system).

Junior Product Manager @ CHECK24 Profis

APRIL 2018 - MARCH 2019 | Berlin, GER

- ♥ Grew users-signup number from 30 per day by 30% MoM by implementing an automated e-mail sending-process which informed cold leads about real customer inquiries on our platform and their business growth potential.
- ♥ Reduced number of errors and user complaints by 5% WoW by replacing an outdated Ruby on Rails application with a GraphQL APIs and a ReactJS front-end web application using Material UI as a design system and implementing new features based on direct user feedback.

Project Manager (working student) @ IBM iX

APRIL 2017 - MARCH 2018 | Berlin, GER

- ♥ Supported the IBM iX project-management team to deliver IT-projects for its client Volkswagen, by doing data analyses, HTML coding and testing new web features.
